COUNTRY	East Germany	REPORT		25X1
SUBJECT	Development of a 10-cm. Radar Instrument at VEB Funkwerk Dresden	DATE DISTR.	12 December 1955	25X1
		NO. OF PAGES	1	
DATE OF INFO.		REQUIREMENT NO.	RD	25X1
PLACE ACQUIRED		REFERENCES		
DATE ACQUIRED		This is UNEVALUATED Information		

SOURCE EVALUATIONS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE.

1. A 10-cm. radar instrument, with a rotating aerial, has been developed at VEB Funkwerk Dresden and was tested during June 1955 at Stubbenkammer on Ruegen Island.
2. The order for the equipment was placed by the Ministry of the Interior as part of their Special Plan.¹ No proper technical specifications were supplied to the works, but a range of 300 km.² was called for. During the trials, the Swedish Coast, approximately 80 km. away, was only just discernible.³
3. After the tests at Stubbenkammer, the equipment was taken back to VEB Funkwerk Dresden for certain modifications to be carried out. It was still there at the beginning of October.
4. Two additional instruments of the same type are to be built in the factory for the KVP (Kasernierte Volkspolizei).

Comments:

1. 25X1
2. a range of 300 km. impossible for an instrument of this type. 25X1
3. during the testing of the apparatus, it was established that the Russian radar station on Cape Arkona was also working on 10 cm. 25X1
